

# SAMMY

Forever 6 Years Old

Diagnosed with Neuroblastoma

Sammy loved Legos and was officially a master builder completing expert level creations in a few hours. He loved Star Wars especially the Storm Troopers. He loved to cook with his family and watched food network often, he fancied himself a budding food critic. Sammy enjoyed traveling and we used these adventures often to escape the realities of disease and treatment. Most of all Sammy loved to spend time with his family.

Throughout Sammy's treatment and battle against cancer he was able to enjoy the support provided by children's cancer charities. We attended many events and he and his sister got toys or gifts. These incentives helped to soften the pain felt by nightly shots or the frustration from one more week in the hospital. We continue to be amazed by the doctors and medical staff that dedicate their lives to helping save children like Sammy. We have no doubt that they will continue the fight to cure childhood cancer so that one day there will only be survivors.

Your participation in this 5k makes a difference. The funds raised help families like ours. Spreading awareness about childhood cancer and the need for funding is incredibly important. We thank you for your dedication and support.

**We miss you Sammy!**

Think about all the smiling faces you have helped while you run or walk!
