

JONATHON

19 Years Old

Diagnosed with T-Cell Acute Lymphoblastic Leukemia at Age 10

On September 11, 2009 our world was turned upside down when we heard the words “your son has Cancer”. As parents you live with the illusion you can protect your children. Four small words shattered that illusion and our family was thrown into the “Pediatric Cancer World”. Jonathon endured 3 ½ years of chemotherapy and radiation and we are happy to report he is now a Freshman at NAU and is Cancer Free!

Our personal experience as a childhood cancer family was the inspiration behind CHAMP. We discovered the need for families to get connected to a network of support soon after diagnosis and the importance of the community to be educated and empowered to make a difference in the lives of children and their families impacted by cancer.

Thank you for your support. You truly make a difference!
