

# EMMIT

## Forever 3 Years Old

Diagnosed with Stage 4 HR  
Amplified Neuroblastoma  
November 11, 2017  
at age 1 1/2

Emmit had a light in his eyes and a smile on his face and developed a super spunky personality before the time he could walk. He was just so full of life.

Diagnosed with excessive tumors, all over his body, and for two weeks was in a coma. Big brother Hayden hit Emmitt in the face with a balloon he had got from the gift shop Emmitt immediately woke up, smacked the balloon back, and smiled. It was as if he needed Hayden's tough love to tell him it's time to wake up and fight!! That is what Emmitt did. He underwent 13 rounds of chemotherapy, 10 surgeries, 46 doses of radiation, two bone marrow transplants, immunotherapy, and over 170 hospital stays during his short life.

Emmitt relapsed with a stubborn tumor in the brain. He started other chemotherapies plus radiation and everything else they could throw at him. A few months later our oncologist informed us there was no known cure.

We decided to make the last few months we had with him worthwhile and made memories. Doctors gave him two months and he lasted 5!! In May (his Birthday month) we celebrated Emmitt's 4,5,6,7,8,9,10, teens, 20s, and Over the Hill birthdays every day. By the end of May he was tired of us singing 'Happy Birthday'.

Emmitt had two more weeks at home, before it was time for him to go home with Jesus.

**He will always and forever be our Super Emmitt.**

Think about all the smiling faces you have helped while you run or walk!
