

ISRAEL

9 AÑOS DE EDAD

Diagnosticado con leucemia linfoblástica aguda (A.L.L.)

Israel fue diagnosticado con leucemia linfoblástica aguda (ALL) en abril 24, 2018 días antes de su cumpleaños número 6. Fue una batalla difícil y dura pero Gracias a Dios y a todos los doctores y enfermeras de Banner Children's at Desert el pudo acabar su tratamiento Diciembre 31, 2020 y tocó la campana que venció el cáncer lo logró con mucha fe, esperanza, y el amor de toda su familia. El es un niño muy fuerte y alegre en su tiempo libre le gusta jugar vídeo juegos, soccer, football con sus amigos. Para aquellos que están pasando por una batalla similar les podemos decir que tengan mucha fe y nunca la pierdan porque Dios es grande y los doctores son unos ángeles y primero Dios ganaran su batalla como Israel lo hizo.

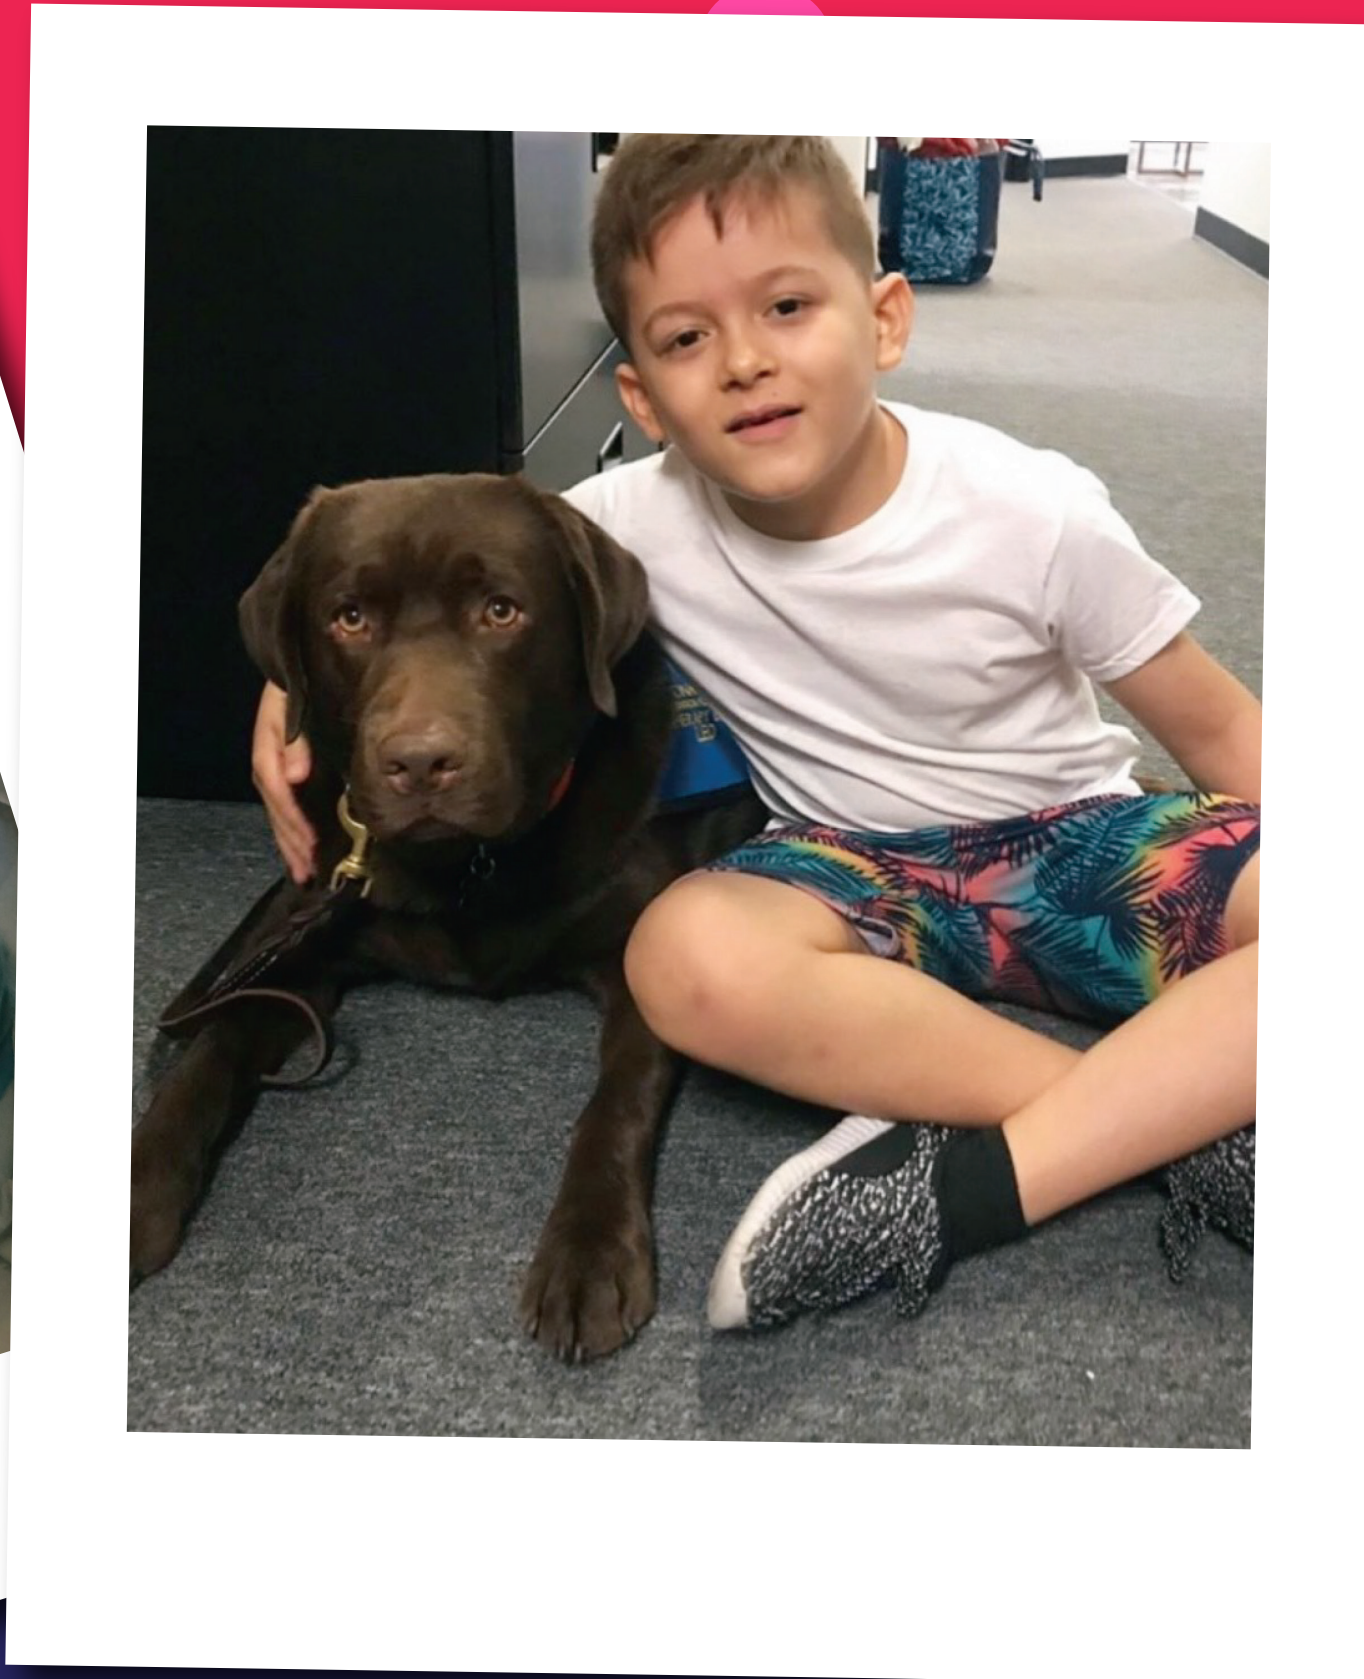

Think about all the smiling faces you have helped while you run or walk!

ISRAEL

9 YEARS OLD

Diagnosed with Acute
Lymphoblastic Leukemia (A.L.L.)

Israel was diagnosed with acute lymphoblastic leukemia (ALL) on April 24, 2018 days before his 6th birthday. It was a tough battle but thank God and all the doctors and nurses at Banner Children's at Desert he was able to finish his treatment December 31, 2020. He rang the bell and beat cancer! Israel achieved it with a lot of faith, hope, and the love of his entire family. He is a very strong and happy boy. In his free time, he likes to play video games, soccer, football with his friends. For those who are going through a similar battle we can tell you to have a lot of faith and never lose it because God is great and the doctors are angels. Ultimately God will win the battle. He did with Israel.

Think about all the smiling faces you have helped while you run or walk!
