

MACKENZIE

10 YEARS OLD

Neuroblastoma
High-Risk Stage 4

I love crafting, drawing, cooking, swimming and hanging with my friends and family. When I grow up, I think I'd like to be a veterinarian and a pet chef.

If I were a superhero, I would be The Golden Child because Gold represents all Children's cancer and with my super power, I would delete cancer from the planet!

Cancer brought my family closer to each other, especially my brother, Nick. We learned through my journey, not only how strong I AM, but how strong our family is and what an amazing village we have.
Our family Motto: NEVER GIVE UP!

Hearing the words "Your child has cancer"... Devastation! No one ever wants to hear those words, let alone about your child. Our job as parents is to protect. In some way we felt we had failed to do this.

Getting through our daughter's journey taught us many things. It taught us how strong we are as a family unit. It showed us how wonderful our village is. It brought us closer to God. It taught us; we were not alone!!

Now? We keep waiting for the lingering worry to go away. Our new reality; This is it. Life is amazing! Enjoy every moment!!!

Kenzie's care team were always available to calm us down, stay positive, and give us hope when we were blind with fear.

My daughter is alive because these amazing people!

Think about all the smiling faces you have helped while you run or walk!
